REPORT OF LIBRARY TRUSTEES

During the last two summers there have been numerous inquiries by both the townspeople and summer visitors as to why the library was not open during the middle of the week. As it has always been the policy of the Trustees to give the users of our library the very best in both books and service—so in this instance we will open the library on Wednesday afternoons from three to four throughout the months of July, August and September.

SCHOOLS

REPORT OF THE SCHOOL BOARD

The annual meeting of the School District was held in the Town Hall March 15, 1930 and the following officers were elected: Alfred Conner, Moderator; Leslie F. Hayden, Clerk; Abbie A. Pease, Treasurer; Eugene C. Patridge, Auditor.

Eloise B. Sheehy was elected a member of the School Board for three years.

The School Board met and organized as follows: C. A. Pollard, Chairman, and Eloise B. Sheehy, Secretary.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board of Newfields, N. H.:

It gives me pleasure to submit my annual report as superintendent of the Newfields schools, the twelfth in the series.

In order that you and the citizens of Newfields may see at a glance how Newfields pupils are located in the various elementary and high school grades, I have devised the following chart:

Grades	1	2	3	4	5	6	7	8	9-12	
Primary School	11	8	10	0	0	0	0	0	0	29
Grammar School	0	0	0	8	5	7	1	3	0	24
Robinson Seminary	0	0	0	0	0	0	1	1	1	3
Exeter High School	0	0	0	0	0	0	1	0	7	8
Totals	11	8	10	8	5	7	3	4	8	64

At this time last year, the enrollment in our local schools in grades one to six, inclusive, was thirty-seven; of these sixteen were in the grammar school and twenty-one in the primary school. Last year was the first in a decade with no seventh or eighth grade pupils in the Newfields school. The chart above shows that we have four there at

present and that three are enrolled in Exeter. Of course this means that the educational advantages of some of our seventh and eighth grade pupils are much better than those of others, because, for one reason or another, some parents cannot send their children to these grades in the junior high schools of Exeter and because no teacher in our grammar school can, with several other grades in her room, teach the seventh and eighth as they are taught in a junior high school. The pupils in those grades in Exeter have the use of laboratories, manual training rooms and cooking and sewing rooms fitted generously with apparatus, they also have recitation periods, never less than thirty-five minutes long and, for the most part, their teachers are specialists, who teach only one subject. It is evident, of course, that such a teacher can do for her pupils much more than a teacher in a many graded room like our grammar school. Inequality in preparation for high school results. I am of the opinion that, if the expenses of junior high school for all Newfields pupils were defrayed by a district appropriation for the purpose, all our seventh and eighth grade pupils could be assigned to attend the schools of Exeter with the advantages outlined above and, at the same time, our local teacher could bring more efficient work to grades four, five and six. I earnestly call this to the attention of the district.

I invite your attention to the statistical tables appended to this report. They give much information not easily found in any other form. I am particularly gratified at the greatly improved showing of last year in the matter of tardiness and percentage of attendance, as recorded in Table I. It is the best record in eleven years and is the result of persistent work on the part of teachers and parents. Table II gives Newfields standing in these matters, as compared to four other towns of the Union; you will note that Newfields stands first not only in that comparison but in the one dealt with in table VI, total current costs of schools. Table VII tells you that with one exception, current school costs in Newfields were last year the lowest in eight years.

All of this means that you as managers for the district and the teachers as your workers in the schools have been very successful. The record for the current year will undoubtedly equal that of last year.

For the first time you, in conjunction with neighboring districts, are employing a full time school nurse. Your policy is a wise one for the nurse not only makes the usual physical examinations and sends the usual notices of defects to the parents, but she follows these activities by visits to homes, regularly inspects the schools throughout the year and is available always in epidemics of serious disease; the latter advantage is one of no small importance. Newfields receives this service for an outlay of \$1.50 per pupil per year. I call your attention to Miss Patten's report below.

I am sure that, so far as the physical plant is concerned, our most urgent need is for adequate supply of water. We have felt the need keenly in this year's drought. Children ought to drink much water and, if supplied with it, they will do so. In addition to that, we cannot go very far in leading the pupils into habits of cleanliness, especially in cold weather, with our present arrangements for washing hands.

It is with a deep sense of appreciation that I once more acknowledge for the teachers and for myself the interest and co-operation of School Board, parents and other citizens in our work.

Respectfully submitted,

CLIFTON A. TOWLE, Superintendent,
Supervisory Union, No. 16.

Exeter, N. H., February 14, 1931.

REPORT OF SCHOOL NURSE OF NEWFIELDS

Newmarket, N. H., February 11, 1931.

Mr Clifton A. Towle,
Supt. of Schools,
Exeter, N. H.

My dear Mr Towle:

I am enclosing a report of health supervision in the schools of Newfields, Greenland, Kensington and Strat-ham.

I have made all the physical examinations and the necessary home visits, but there is a considerable amount of corrective work yet to be done in your Union.

Since September 8, 1930, fourteen nursing visits to the Newfields schools have been made. Fifty-one children have had physical examinations and notifications of defects have been sent to parents. The results of the examination show the need for considerable corrective work.

Sincerely yours,

MARTHA A. PATTEN, R. N.
